PARLIAMENT TO CONVENE ON TUESDAY

British Cabinet Will Challenge Opposition at Outset of Session

PREMIER REFUSES TO RESIGN SEAT

By VICTOR EUBANK
Associated Press Staff Writer
LONDON, Sept. 2.—The National Cabinet completed its taxation programme at a long meeting today, and a call was issued for Parliament to meet in special session, September 8, to enact the programme into law.

The Government made it clear there will be no dilly-dallying in the House of Commons by deciding to ask for a vote of confidence on the opening day of the session, before explaining the economy and taxation programme designed to cope with the national financial emergency.

DEMAND SUPPORT
The Prime Minister, Rt. Hon. Ramsay MacDonald, will ask the House to declare without delay whether it will put its trust in the three-party administration he heads. If the expected vote of confidence is forthcoming, Rt. Hon. Philip Snowden, Chancellor of the Exchequer, will make a full statement, setting forth the entire budget-balancing scheme.

Mr. Snowden will make his appearance before Parliament on Thursday, September 10, it was learned authoritatively tonight.

Mr. MacDonald today informed his constituents at Benham Harbor that he proposed to retain his parliamentary seat until he has disposed of the financial emergency.

NATION PREPARING
The Cabinet's financial plan for strengthening the Treasury embolism two principal bills having to do with new taxes and revenues. Just what these are is a state secret, but the whole population, from the lowest to the highest, is preparing to participate.

Beer, wines, tobacco, theatres, movies, cricket, horse racing, and all amusements are expected to bear increased taxation. It is believed, however, that the Government will go lighter on beer than anything else, because it is the beverage of the low-wage worker.

Announcement that the Cabinet had completed the plan came as a surprise, as only a few days ago it was believed the multitudinous details involved would make necessary delay in the opening of Parliament.

KILLED IN ELEVATOR

OWEN SOUND, Ont., Sept. 2.—Falling ninety feet to the floor of one of the bins at the Gray Lake elevator here today, Joseph Morneau was killed. His body emerged from the bin in the moving of the floor of grain fifteen minutes later.

Curtain Rising on Second Picture of Death and Suffering

Fruitful Basin in Northern Kiangsu Transformed Into Death Trap for Many Thousand Chinese—Starvation and Exposure Take Millions

SHANGHAI, Sept. 2 (AP).—Another vast welter of death and suffering is slowly being revealed to the afflicted Chinese people. In Hankow, Wu Chang and Hanyang, a quarter million persons were estimated to have died of flood, starvation and exposure during August. Northern Kiangsu Province, once fruitful basin between the Grand Canal and the sea, has been transformed into a death trap for scores of thousands.

ARREST LEADER OF SEDAN GANG

Vancouver Police Hold Six Youths as Bandit Suspects in Connection With Recent Hold-Up

VANCOUVER, Sept. 2.—With six suspects already held for possible identification, and other arrests expected hourly, city police continue their intensified search for the bandits who last night held up a Jot O. J. Oates, streetcar conductor, at the 28th Block, McGill Street.

The "blue sedan" bandit gang is believed to have been broken up by the arrest on Tuesday of two seventeen-year-old youths, who are reported to have confessed to twenty-three holdups. One of the youths, according to police statements, admitted he was the leader of the original "blue sedan" gang, which terrorized the residential districts of the city for more than three weeks, holding up motorists and pedestrians with rifles and revolvers.

AMERICAN VETERAN WOULD MODIFY LAW TO HELP SOBRIETY

LONG BEACH, Cal., Sept. 2 (AP).—By an overwhelming majority the California State Convention of the American Legion today voted to ask Congress to bring about temperance modification of the Volstead Act.

Attending Legion Convention

LEFT to right: Lieut.-Gen. Sir Richard Turner, V.C.; General Sir Arthur Currie, and Lieut.-Gen. Sir Percy Lake, K.C.M.G., whose counsel and ability is being enlisted in connection with the Fourth Division Convention of the Canadian Legion of the British Empire Service League, which is being held at Niagara Falls, Ontario.

JAIL BREAK WAS PLANNED

Reported Mutiny of Prisoners at Kingston Discovers in Time

PRISONERS MADE DAGGERS IN SHOP

KINGSTON, Sept. 2.—The Whig-Standard today published the following:

"Despite official silence and official denial concerning the story published in The Whig-Standard yesterday telling how a mutiny and general delivery, planned in the Kingston penitentiary, had been nipped in the bud at the eleventh hour, this newspaper stands absolutely by its published story and affirms the truth of it in all its salient features. A mutiny was planned, the murderous silencers and daggers which were to be used were, in fact, made in the machine shop of the penitentiary, were discovered there and are now impounded, and in the possession of penitentiary officials."

GUARDS INFORMED
The five ringleaders, with "Two-Gun" O'Brien as the chief, are now segregated from the other penitentiary inmates, and if it had not been for the information given to certain officials by an inmate of the institution who realized that the plot (all the immediate participants in it being men serving sentences for from sixteen to twenty-six years) was a powerful floodlight has been placed in the corridor directly in front of the cell in which O'Brien is now confined."

PREVIOUS WINNERS
Victoria held the tankard in 1911, 1912, and 1929. Chilliwack won it in 1913; Saanich in 1920, 1924 and 1925. Richmond has the cup five times, 1921, 1923, 1925, 1927 and 1928. Cowichan won it in 1922.

The displays contained fresh and preserved fruits, vegetables, fresh and preserved, grains and agricultural seeds, forage plants, roots for stock, dairy products, poultry products, boxed apples, plums and prunes, wines, cider and beer, canned fruits, jams, jellies and marmalades, and all varieties of orchard products.

Five Injured in Vancouver Smash

VANCOUVER, Sept. 3 (CP).—Five persons were injured in a collision between a truck and a car at the intersection of Thirty-Third Avenue and Angus Drive at 1 a.m. today. The injured are Mr. and Mrs. Charles Charles, Mr. and Mrs. Johnny Newman and an unidentified man. All were taken to the hospital. The two women were unconscious.

CHINESE ORDERED TO LEAVE MEXICO

THOUSAND REFUGEES APPEAL TO MINISTER FOR PASSAGE MONEY TO NATIVE LAND

MEXICO CITY, Sept. 2 (AP).—Sam Young, Chinese Minister to Mexico, said tonight he had received reports that the campaign against Chinese in Mexico had spread to the towns of Acapulco, Toluca and Benita, and that Chinese residents of those places had been ordered to leave by September 15.

He said, approximately 1,000 Chinese refugees are congregated at Mazatlan and that they had appealed to him to raise their passage back to China.

FLOODS UNITE
The swollen Hwai River poured its waters into a string of lakes, which emptied into the Grand Canal, the dikes of which burst. This flood united with that from the Yangtze River, streaming forth through broken dikes near Wuhan in Anhwei Province. The typhoon, the night of August 28, flung a great lake over the populous area, drowning thousands.

When Harnabarger left his station at Taichow, the water was eight feet deep outside the city wall. While the National Flood Relief Commission's energies were concentrated upon the Central Yangtze Valley, Kiangsu provincial authorities mobilized to aid the Grand Canal region. Forty launches are searching the inundated basin, rescuing people from trees and roofs.

EARTHQUAKE IN JAMAICA

KINGSTON, Jamaica, Sept. 2 (AP).—A sharp earthquake shock lasting four seconds was felt here at 4:35 p.m. today. Buildings were swayed, but no damage was done. The shock followed a period of very hot weather.

Premier Tolmie to Address Saanich Ward Seven Rally

PREMIER Tolmie, C. H. Dickie, M.P., and H. D. Twiss, M.P.P., will address the annual meeting of Ward Seven, Saanich Conservative Association, to be held at St. Martin's Hall, Chedoke, at 8 o'clock this evening. Dancing will follow the conclusion of the business of the meeting. It will be Mr. Dickie's first appearance on a platform in the province since his return from the recent session at Ottawa.

GOVERNMENT AID SOUGHT

B.C. Municipalities Face Considerable Problem in Creating Work

Praise for the Federal and Provincial Governments in the preparation of comprehensive plans to create employment in British Columbia during the coming months, coupled with a request for early action to decide the proportion of the cost of emergency works that must be borne by municipalities, were generally voiced at a two-hour conference between the Municipalities of British Columbia and the Provincial Cabinet yesterday.

The unemployment committee of the Cabinet and Hon. R. W. Bruhn, Minister of Public Works, came in for special commendation. Mr. Bruhn being described by Mayor A. Wells Gray, of New Westminster, as the "right man in the right place."

The Municipal delegates to the meeting, and concurred in the tribute by Mayor Gray to the measure taken by the two Governments to handle the situation in coming months.

On behalf of the Cabinet, Premier Tolmie assured the delegation that no unnecessary delay would occur in the final settlement of all details. The Dominion and the Province, in joint arrangements had opened work in British Columbia on highway projects at many points, and this work was being expanded as fast as humanly possible.

France to Favor Hungarian Grain

By EUGENE CRAWFORD
(Copyright, 1931, by The Chicago Daily News Service)

VIENNA, Austria, Sept. 2.—In an interview published in the Hungarian Government semi-official newspaper Pester Lloyd, titular Minister Alfred Nickl, Hungarian economic expert, who negotiated the Franco-Hungarian commercial treaty, declares in effect that Hungary and France have found a way to evade favorable clauses and establish preferences.

On a schedule which can be varied from year to year, Mr. Nickl stated, Hungary will receive from French farmers 30 per cent of the French import tariff which the Hungarians pay on grain sent to France. At present this refund is set at twenty-four French francs per 100 kilograms (about 90 cents for 220 pounds).

Vancouver Chosen For Legion's Next Convention Venue

NIAGARA FALLS, Ont., Sept. 2 (CP).—Vancouver was selected as the venue for the next annual convention of the Canadian Legion, British Empire Service League, at the concluding session of the convention here today. The Pacific Coast city defeated Ottawa and Port Arthur for the honor. The date of the 1932 gathering has not yet been decided.

United States Magazines Will Publish in Toronto

WINNIPEG, Sept. 2 (CP).—Several United States publishers have stated their intention of publishing in Toronto as a result of the 15-cent-per-copy minimum tax of certain types of magazines entering Canada.

W. J. Dickson, president of Canadian News, said he had been notified such steps would be taken by Love Story, Western Story, Popular Argosy, Flynn's Adventure and Calgary Eye-Opener.

He considered that practically all magazines taxed 15 cents per copy would be discontinued by retail dealers, except for specific orders from customers. Mr. Dickson added that a circular from Canadian News resulted in but one order among approximately 100,000 copies previously sold in the West.

Magazine readers may switch to English magazines as a result of the new tax, Mr. Dickson added. He said that the publishers of the new magazines, which he said would be allowed for the English magazines if increased demand warranted.

Nurse Elderton Killed In Third Major Motor Accident in Four Days

Philip Lapp, Seventeen, Released by Police in Care of Father Pending Inquest—Death Car Held as Evidence—Fatality Occurs at Yates and Cook Streets Intersection

STRUCK down by an automobile while riding her bicycle across the Cook and Yates Streets intersection, Miss Violet Elderton, of 1157 Hilda Street, died from a fracture of the base of the skull at 9:30 o'clock last night, a few minutes after being taken to the Royal Jubilee Hospital.

Her death brings the fatalities from automobile accidents during the last four days to three. Several other persons have received injuries in what police describe as one of the worst periods of traffic accidents this year.

Philip Lapp, aged seventeen, of 100 Burnside Road, was the driver of the death car. He was released by police late last night and sent home in the care of his father, George Lapp. No action will be taken until after the inquest has been held.

BICYCLE SMASHED
The youth was driving his car east on Yates Street when the accident occurred. Miss Elderton was travelling north on Cook Street. The machine apparently struck the bicycle almost in the centre of the road. The wheel was carried some fifteen feet, Miss Elderton's body being found in the middle of the roadway on Yates Street east of Cook Street. Her bicycle was crumpled and the framework almost split in two.

Constables Maurice Wilkinson and Charles Griffiths attended, and took the woman to the hospital. Dr. E. L. McNiven was called in, but the fracture was of such a character that Miss Elderton died within a few minutes without regaining consciousness.

INQUEST TO BE HELD
Three other youths were in the car driven by Philip Lapp, according to police report. They were George Burton, nineteen years of age, of 80 Regina Avenue; John Lapp, fourteen years, brother of the driver; and Jack Proud, seventeen years, of 75 Hampton Road.

The automobile and bicycle were taken to the police station and will be held there pending the inquest. No time was set by Coroner E. C. Hard for the hearing, as the inquest is to be held today into the death of Thomas Watson, who died from injuries received when he was struck down by an automobile while riding his bicycle across the intersection of Superior and Government Streets.

Miss Elderton was engaged as a nurse and secretary in the office of Dr. W. E. M. Mitchell at 805 Government Street. She is survived by her mother, Mrs. F. Elderton, manager of Spradlin's Motoprop, with whom she resided.

The names of five witnesses to the accident were obtained by police. These persons will be asked to testify at the inquest.

CITY SEEN AS MOVIE COLONY

Victor McLaglen Thinks Motion Picture Industry Should Take Well Here

Another ardent enthusiast for the motion picture industry in Victoria has been found in Victor McLaglen, famous Fox Studios motion picture star.

Mr. McLaglen, who came to Victoria Tuesday on a vacation trip, said that this city was ideally situated and had the advantage of natural settings and equable climate that many other Canadian cities did not have.

Its proximity to Hollywood was another valuable feature, Mr. McLaglen pointed out, as the praises of Victoria as a potential motion picture industrial centre.

BRITISH QUOTA
With the aid of its natural advantage, the British quota of foreign pictures there should be no reason why Victoria's plans of becoming a motion picture centre should not be realized, he said.

The studio at which Mr. McLaglen works is situated half-way between Los Angeles and Santa Monica and covers an area almost one square mile in size. Such a studio is occupied by many sets, and several different pictures are being produced at the same time.

Mr. McLaglen visualized a similar studio here, with the proper financial backing which, he thought, should be forthcoming from British investors now that the quota system was aiding the British industry.

CRISIS FACTOR PSYCHOLOGICAL

Co-ordinating Committee Recommends Spreading General Feeling of Confidence by All Means

GENEVA, Sept. 2 (AP).—The economic co-ordinating committee of the League of Nations declared tonight that the psychological factor dominates the economic crisis throughout the world and that no relief from the prevailing difficulty.

The committee's declaration was made in a statement adopted by the committee in plenary session tomorrow.

In proposing a number of measures for improving the present condition of international commerce, industry and finance, the committee called on the politicians to spread through the world, by all possible means, "a general feeling of confidence."

Faint Signals Are Heard From Radio Of Wilkins' Craft

COPENHAGEN, Sept. 1 (AP).—The correspondent of the Exchange Telegraph at Longyear City, Spitzbergen, reported tonight quoting Captain Jaeger of the steamship Ingertraede, as saying he heard radio signals from Sir Hubert Wilkins' Arctic submarine Nautilus on September 1, today, but that the signals were too weak for him to understand them.

BRITAIN TO STAND ALOOF

Decides to Remain Inactive in Foreign Affairs for Present

By NEOLY FARMON
(Copyright, 1931, by The Chicago Daily News Service)

LONDON, Sept. 2.—"Money talks"—and for that reason the British do not want to be called on to say very much for some time at international conference tables.

As pointed out by The Chicago Daily News and The Victoria Daily Colonist, when announcement was made of the Cabinet appointments, the present Government intends to maintain an inactive foreign policy. Conferences will be shied to allow full time for the economy job.

EXPECT POSTPONEMENT
The means that there is virtually no chance this year of reassembling the London Seven-Power Conference, still less any request to implement the Vignin Basel Committee recommendation for a reopening of reparations and war debt discussions, and, in the invidious political position Great Britain is placed by the financial stringency, all probably it will willingly acquiesce to postponement of the 1932 Disarmament Conference.

Lord Reading's inability to attend the Geneva meetings will doubtless lead to a postponement of controversial political issues on the agenda of this session of the League of Nations; on others, Great Britain stands aloof.

JUDGE DIES ON LINKS

KENORA, Ont., Sept. 2 (CP).—Judge Howard Wheeler, of St. Paul, Minn., died suddenly from a heart seizure here today, following a round of golf at the Kenora Golf and Country Club. He and Mrs. Wheeler had been holidaying here for several days.

Start Highway Work On Vancouver Island Transcanada Route

Designation as Dominion Thoroughfare Means Great Improvement for Main Trunk Road—Plans Ready for Commencement of Work

DEFINITE arrangements were made by the Provincial Government yesterday to start work on Vancouver Island on the Transcanada Highway project. At several points along the line of the Island Highway, which is now part of the transcanada route, work will get under way this week, it was intimated on behalf of the unemployment committee of the Cabinet.

Designation as part of the Dominion route will have an important bearing on the Island Highway, ultimately bringing that thoroughfare up to the full standard of requirements for the transcanada system. Employment will be created for considerable numbers in the work, the men to be drawn from centres adjacent to the places at which improvement of the highway is to be carried out. Much other Island work is contemplated.

CREATE EMPLOYMENT
Elsewhere throughout the province yesterday active start was being made on the Federal-Provincial plan to create employment, on the basis of equal division of cost as between the Dominion and Provincial Governments. Road camps are being prepared in connection with work on transprovincial routes, outside of urban centres.

Within a short time the Government hopes to have definite settlement of the policy that will be followed by all four Western provinces in the creation of employment during the coming months. Hon. R. W. Bruhn is now at Regina for an interprovincial conference to proceed there, and which has as its aim the drafting of uniform plans for handling relief work in the West, to stop the flow of men from place to place.

Registrations yesterday totaled 38,861, of which nearly 6,000 were transients of less than three months' residence in British Columbia. Municipal residents enrolled numbered 28,312 and provincial residents 8,777. Only 2 per cent of the total registrations are in respect to women.

REWARD ON HEADS OF TWO BANDITS

VANCOUVER, Sept. 2.—A reward of \$500 is offered by the British Columbia Electric Railway Co. for information leading to apprehension and conviction of the two youths who, last night, shot C. J. Oates, motorman-conductor, on McGill Street. One of the youths shot Oates when he laughed at their order to hold up his hands.

Oates is in hospital with a bullet wound in his chest. Six youthful suspects were arrested this afternoon for questioning in connection with the holdup. They will face an identification parade at police headquarters. In the room occupied by the youths, police found three loaded revolvers.

Exhibition Sets New High Record

VICTORIA, Sept. 2.—A record of 8,000 for attendance yesterday set a new high record for attendance with a total of 12,068 persons passing through the gates. This is the highest total in the history of the exhibition, and exceeds the 1920 figure for the same day by more than 2,000. Attendance for the three days of this week are given by fair officials as 20,287, as compared with 17,127 for the three days of 1930.

FRANCE SEEKS ADJOURNMENT OF GATHERING

Suggests Postponement of Disarmament Conference to Later Date

UNITED STATES WILL OPPOSE ANY DELAY

By JOHN GUNTHER
(Copyright, 1931, by The Chicago Daily News Service)

GENEVA, Switzerland, Sept. 2.—The French Government has taken the big step of informally asking the secretariat of the League of Nations to postpone the World Disarmament Conference from February next year to an unnamed later date, it is learned today.

The French adduce the general elections in France, the American presidential campaign and the uncertain political condition of Great Britain as the reasons for the delay. France, too, has been convinced that present circumstances are generally inauspicious for such a conference, and has persistently sought to defer it.

What action the League will take is not known. The movement for delay of the conference is certain to produce vigorous opposition from Germany, the Soviet Union and especially the United States.

Hugh R. Wilson, American Minister to Switzerland and disarmament expert, is coming from Bern to Geneva, presumably to counteract the French move.

Fight for Smiles of This Swain

By A. ALICANTARA PASTOR
(Copyright, 1931, by The Chicago Daily News Service)

MEXICO CITY, Sept. 2.—The days when two men fought a duel to win the love of women are over now and women fight to win a man, at least in Mexico.

Sofia Mendosa Ann and Maria Angeles Vera loved Sergio Soba, a shiek who seemed to enjoy the gift of ubiquity meeting the two girls at different places throughout the day. Everything went on smoothly until the truth came out and the women learned that they had placed their affection on the same man. Quietly they met at noon yesterday, hired a taxicab, paying the toll between themselves, and rode outside the city to a lonely place. There they drew pistols, stood twenty paces apart, and counting one, two, three, fired.

Sofia received a bullet in the chest and was taken to a hospital, while Maria was sent to jail.

QUEEN MARIE SERIOUSLY ILL

VIENNA, Sept. 2 (AP).—Word from Rumania today said Dowager Queen Marie was seriously ill and her physicians believed an operation might be necessary.

RABBITS SCORE AT EXHIBITION

Many Varieties Entered in Annual Rabbit Show at the Willows

There is no sign of depression in the rabbit industry of the island, if one is to judge by the splendid showing in the rabbit building at Willows this week. Entries number 416, and comprise most known breeds. The latest breed, the Rex rabbit, is shown by E. Greenwood, of Saanich. This is a animal developed in the last few years. The fur carries no ground hairs and can be used in its natural state.

Among the utility breeds the Flemish Giants are prominent, T. S. Clarke having a specimen in the natural grey color with a fine dewlap with which he hopes to make a weight record. The Angoras are also numerous, there being good displays by the Fernwood Rabbitry, and J. Gavin. Angora wool brings about \$7.50 a pound and average yield from an animal is about one ounce a year. It is stated that the Japanese are planning to use the fine Angora wool for mixing with silk in order to produce a new fabric.

MANY VARIETIES

There is also a good showing of Chinchillas, New Zealand Reds, Belgians and other kinds, altogether about thirty varieties. The

exhibit of rabbit fur in the raw, and as it is worked up, is a welcome innovation, fur gauntlets and fur coats looking as though they should find a ready sale in the Prairie Provinces. It takes an expert to decide whether fur is from a wild silver fox or the American silver fox rabbit.

The beautiful Himalayan rabbit, with its black tipped nose and ears and red eyes showing from a snow-white fur, is a favorite with the youngsters who delight in furry pets.

J. Thompson, of Vancouver, is judging this year.

The following is the list of prize winners announced by the judges:

B.C. HOSPITALS TO MEET HERE

Fourteenth Annual Convention of Ass'n at Empress Hotel Next Week

The fourteenth annual convention of the British Columbia Hospitals Association will be held at the Empress Hotel on Wednesday, Thursday and Friday of next week, September 8, 10 and 11.

The programme, which has just come to hand, indicates that the major part of the sessions will be in the form of round table conferences, but the Wednesday morning session, beginning at 10 o'clock, will include addresses of welcome by Mayor Herbert Anscomb and Hon. S. L. Howe, Provincial Secretary and honorary president of the association, to which J. H. McVety, president of the association will reply. At the same session the reports of the secretary, Miss Mabel Gray, of Vancouver, and the treasurer, Miss G. M. Currie, of North Vancouver, and the appointment of committees will take place.

Thereafter the convention will resolve itself into round table conferences. At 11 o'clock that morning there will be a women's auxiliary conference, conducted by Mrs. A. C. Wilkes, at which the objects of women's auxiliaries will be discussed, also social services and raising of funds.

Luncheon will be served at the Jubilee Hospital by invitation of the directors and superintendents.

PROFESSIONAL

Dr. A. K. Haywood, general superintendent of the Vancouver General Hospital and special adviser to the Provincial Government on hospital matters, will conduct its Wednesday afternoon professional round table conference on methods by which general hospitals can assist in the treatment and earlier diagnosis of tuberculosis, state health insurance, the financing of hospitals, boards of directors, attitude to professional work of hospitals, case records, postmortem examinations, discipline of doctors in small hospitals, insurance companies' payments and other matters.

The Thursday round table conferences will include one at 9:30 a.m. on business management of hospitals, conducted by E. S. Withers, business manager of the Royal Columbian Hospital, New Westminster and convenor of committee of business affairs. Among the subjects to be discussed will be laundry and sterilizing equipment for 100-bed general hospitals with separate isolation department of twenty beds, budgeting of hospitals, opening of board meetings to the press, milk supply, care and upkeep of hospital instruments, collection from municipalities of the seventy cents per day per capita allowance and liability insurance.

Luncheon on Thursday will be at St. Joseph Hospital.

The round table conference on Thursday afternoon will be on dietetics, conducted by Miss W. C. Pipes, chief dietitian of the Vancouver General Hospital. The points to come up cover the entire question of dietetics, including supervision of ward kitchens and equipment, infant feeding, use of dietetic department to outpatients' department and nutrition exhibits at exhibitions.

FRIDAY PROGRAMME
The convention will close at midday on Friday, the morning session to be devoted to round table conference on nursing, conducted by Miss G. M. Currie. The questions coming up include training schools, group nursing, reduction of classes added to training schools, registration fees.

The round table conferences are to be open to questions from the floor as well as discussion of written questions.

J. H. McVety is president, J. M. Coady, Vancouver, first vice-president; Dr. E. M. Pearce, Victoria, second vice-president.

The committee on local arrangements is: Dr. E. M. Pearce, convenor; Mrs. Charles W. Rhodes, Miss Mitchell, Dr. M. W. Thomas, Dr. J. H. Moore and S. J. Drake.

CHIROPODY ACT CASE DISMISSED

James W. Maynard Wins Dismissal From Charge of Illegal Advertising in City Police Court

Action brought against James W. Maynard, charging that he illegally used the term "foot specialist" in advertising, yesterday was dismissed by Magistrate George Jay in the city police court.

The charge was laid against Mr. Maynard by Jacob Gorosh, secretary of the board of examiners of the B.C. Chiropractors' Association.

Frank Higgins, K.C., counsel for Mr. Gorosh, contended that Mr. Maynard, in advertising himself as a "foot specialist," did so in violation of the Chiroprody Act.

Mr. Maynard, who conducted his own defence, contended he had

THE PROVINCIAL EXHIBITION

This year, with the provision of the new Horse Show Building, there is more space available at the Willows grounds for the purposes of the Provincial Exhibition. These grounds within the past two years have been improved so as to give the public more space for moving about. The changes in the racecourse and the provision of a new grandstand, with betting facilities underneath, have been greatly appreciated. Now this year, the public are experiencing the benefits accruing through the provision of a new Horse Show Building. That means greater and better space than has ever been made available for exhibits. Because of the programme of improvements being undertaken so steadily the Exhibition directors deserve congratulations.

Despite disappointing weather on the opening days of the Exhibition, it is being well patronized. It has come to be a habit for Victorians and nearby residents to pay at least one visit to the Willows while the Exhibition is in progress. It is very probable that hundreds, if not thousands who go there, fall to see half of the exhibits; in other words, they are left with an inadequate impression of the industrial possibilities of which in so many ways such an exhibition is an earnest. Properly to see what there is to be seen, at least two visits to the Willows are necessary. Some hours spent going from section to section will well repay the effort. It is not just a form of exaggerative speech to say the Exhibition is "bigger and better" than it ever was before. It is, as well, brighter and more interesting and of higher educational value than in the past.

A notable feature of the Exhibition is the stock, with a record number of entries, among which are animals from the Prince of Wales' ranch in Alberta. The latter have scored heavily in the prize winning awards. An illustration of the pains being bestowed by the E.P. Ranch in assembling high-grade stock in order to foster its development in the Dominion. Those who saw the stock parade yesterday, and it must have been witnessed by practically everyone who was at the Willows during the afternoon, gained a splendid appreciation of the character of the stock and the magnitude of the entries. It appears that in this branch of the Exhibition, Victoria has scored over every other fair held throughout the Province during the present year. That is a tribute to the importance of the annual exhibition held in the capital.

In every section the exhibits are not only numerous but excellently chosen, and, in the main, admirably displayed. Most certainly, this year more than ordinary pains appear to have been taken in the varied displays. In the aggregate, the Exhibition has established new records, and the general hope is that a similar result will be shown in the attendance. Yesterday the thousands who were present enjoyed themselves and paid very creditable attention to the different industrial sections. If the interest which reached such a height can be sustained for the rest of the week, and if the weather holds, there are good reasons for hoping that all former attendance records will be beaten. That is always the aim of the Exhibition authorities, and because of the show they have staged this year they are entitled to expect the fullest possible public appreciation.

AN AMERICAN VIEW OF WAR DEBTS

One of the financial advisors to the American Commission to negotiate peace in 1919, Mr. George P. Auld, has written an article in the September Atlantic Monthly, upon the problem of war debts, under the significant title, "That International Millstone." This title indicates very live question. He is in favor of cancelling the war debts, but the chief interest in the article is the course of reasoning by which he reaches that conclusion, a course of reasoning which, if it is not refuted during the controversy, is likely to appeal strongly to the business sense of the American people.

In Mr. Auld's opinion it is desirable in the first place that the public should be told, and made to understand clearly, that the popular picture of reparations as a debt of colossal size, of "astronomical proportions," is wholly fanciful and misleading. Mr. Auld's figures are as follows: Under the Young Plan, Germany was asked to find, for fifty-nine years, from September, 1929, an average annual amount of 475 millions of dollars, or \$7.50 per head of the present German population. Of this sum, the Allies retain one-third, namely 158 millions, or 90 cents a head, of the combined population of the six principal European creditors. The amount to reach the United States annually is thus 317 millions, the equivalent of \$2.60 per head of the population, or four-tenths of one per cent of the national income.

Mr. Auld remarks that the significant thing about these figures is their small size, that "to the United States, the ultimate recipient, the payments are of practically no importance at all." Moreover, he thinks that under normal conditions, and even assuming some permanent diminution of income due to the fall in prices, the annual payment has, for Germany, only moderate economic importance, an importance which will steadily diminish as population in that country increases.

In this view of the matter the economic side of the situation is not the important one. It is the political factor that needs the most serious consideration. The Germans, not unnaturally, have been told, and most of them believe, that the reparation debt is "a hateful indemnity saddled on the defeated." It would not be surprising if the Hitlerites, pledged to repudiation of war debts, should come into power. On the other hand the Americans, he says, continue to think, mistakenly, that 317 millions a year is of some consequence, and that moreover

Europe should be taught, by debt collection, to mend its ways.

The essayist believes that the German people are not at all likely to change their minds. They feel that they are being made to pay tribute, and the existence of that feeling and the ease with which it can be played upon by political adventurers, may become a menace, and continue to be a menace, not only to political but also to economic stability. The suggested solution is that it should not be beyond the capacity of the American people to grasp the idea that \$2.60 a year apiece is nothing at all compared with American interest in the stability of Europe.

FEDERAL ASSISTANCE

The New York Journal of Commerce is able to estimate in a concrete way what Canada is doing to solve unemployment. In effect this organ sees that the Dominion and Provincial Governments have been making rapid progress with unemployment relief measures. It deals especially with the Unemployment and Farm Relief Act passed at the last session of the Federal Parliament and points out in this connection that the Dominion Government is in a position to make such contribution for the alleviation of unemployment as it deems advisable, in other words, it is enabled to undertake comprehensive measures.

The Dominion Government has asked every member of Parliament to ascertain what are the needs of his constituency. It is therefore, a matter for each member concerned to say what should be done. There is not a shadow of doubt of the genuineness of the attitude of the Federal authorities. They are anxious to do whatever lies in their power. They have made proposals which are exceptionally favorable to both the Provincial Governments and the municipalities. These proposals should be seized upon with avidity. The Federal authorities are obviously doing all in their power to meet the necessities of the situation.

GUNMEN IN VANCOUVER

The wounding of a motorman by bandits in Vancouver should lead the authorities there to tighten up their safety precautions, the more especially to make it absolutely clear that gunmen will not be allowed to operate in this province. The probability is that the hold-up men came from outside the country. There is an illustration for the Vancouver police in the way justice should operate by a happening in Toronto of recent occurrence. An American gun man arrived there, held up a motorist and took his car and money. He was arrested and immediately tried and sentenced to four years' imprisonment with ten strokes of the cat.

Only swift and sure punishment will keep gunmen out of the country. They must be gunned instant that there is no political pull in the Dominion that stands between the crime and the punishment. Vancouver is acquiring too notorious a reputation for crime. There should be the sternest kind of repressive measures, and, if necessary, an alteration in police methods and personnel in order to uphold the progress of law and order in this section of the Dominion.

BRINK OF STORM

Dark arms of storm are flung across the hills; The breath of Summer, warm and quiet, stills The birds, and tail and motionless, the trees Await the sudden tumult on their leaves.

And all of earth, with emerald thirst, is lying Waiting the windy sigh, the rush of cryns, For from the throat of storm . . . and small red foxes lain At the edge of their burrow, drowse and dream of rain.

A LITTLE MAID

I say not sweetest of the sweet
Nor rarest of the rare,
For childhood is so often sweet
And so often fair.

But lovely as a flower to me
Is that bewitching face,
Nor can I ever hope to see
A more unconscious grace.

Only to look at her is much;
But oh, the thrill she brings
With tender magic of her touch,
The little hand that clings.

It stirs me with a sudden flow
Of comforting surprise;
And life must still have joy while so
I find it in her eyes.

Note and Comment

By R. B. D.

As one who lives in populous cities pent,
Where houses thick and sewers annoy
The air,
—Milton.

The newspapers of Vancouver and Winnipeg have been carrying on an interesting controversy about the relative size of their cities as disclosed by the census returns. The engagement has been good-natured on the part of all the parties with the exception of one. The Winnipeg Tribune philosophically concedes the supremacy of Vancouver and agrees that at least temporarily the Coast City is entitled to wear the crown as the unit of Canada in point of population, but intimates that when the returns are complete and all the facts given consideration, there may be a different story to tell the world.

The Manitoba Free Press has not accepted the situation so philosophically. The paper is rather ill-natured and churlish in its comments. It has been like that ever since the late Dominion general election, when something it did not anticipate happened and which it believes could not have happened if somebody had not blundered. The somebody who blundered in the matter of the disconcerting result of the election was the leader of the late Liberal Government.

The Free Press alleges that Vancouver attained the enviable position of third city in Canada in point of population by sharp practice, not to put to fine a point upon it, by including the population of Westminster, several miles beyond the boundaries of Vancouver proper, and some other outlying districts, within the municipal bounds of Vancouver. The people of Vancouver are ambitious, resourceful and sharp, quite as sharp and as sly as Old Joe Bagstock, as his neighbors know by experience, but in this instance the charge laid against them by the envious Winnipeg paper cannot be sustained. The two hundred and forty-five thousand people of Vancouver enumerated in the census returns all live and move and have their being within the boundaries of the city. It is true that Vancouver has become great by processes of annexation, but such processes have been adopted by all growing cities, by Montreal, by Toronto, by New York, and even by London.

There is more substance and no ill-will in the explanation of the situation given by The Tribune. The explanation is that the population of Greater Winnipeg is greater than the population of Greater Vancouver, and that if a policy of annexation had been adopted in one case as well as in the other, the census returns would have told a different story, and that explanation is supported to some extent by the bank clearings and other business data. Besides the manufacturing and commercial interests of Winnipeg are said to be vastly greater than the corresponding interests of Vancouver. And if Vancouver has the present advantage of access to the sea as a great and growing ocean port, Winnipeg is going to have access to the sea also through the ocean port which will be opened during this month at Churchill and Churchill is as close to the markets of the United Kingdom as the port of Montreal.

If the port of Churchill were open to business all the year round, at the ports of the Pacific are the prospects of Winnipeg becoming a greater distributing point than it is would be assured, but we fear the advantages of the new ocean port of Manitoba have yet to be demonstrated. The Free Press charges that a conspiracy has been brewed by certain mythical interests to damp the prospects of the Manitoba ocean port, but our suspicious, temporary has been inconsistently charging that the East and the West have always been jealous of the Centre and doing their worst to crush its ambitions. Such suspicions are, of course, the products of a morbid imagination. The prosperity of any part of Canada must prove advantageous to all parts of Canada. We venture to say that sentiments of the people of Canada, whether of the West or the East, with regard to the port of Churchill if given expression, would be, may the new port flourish and become the centre of a flourishing country and the home of a prosperous population.

We suppose there are advantages in being big and satisfactions in the fact of growing bigger; but in this controversial matter of the growth of cities there are also disadvantages. One of the disadvantages which follows the growth of cities is the growth and increase of crime. In big and growing cities there may be an increase in wealth, but paradoxically there also will be a corresponding increase in poverty and disease. We suppose it is a realization of these manifestations which makes the people of Victoria so philosophically content with the status of their city compared with other cities. If the people of this city had been ambitious and aggressive,

if they had attached any value to what is called pride of place, if they had been animated by the spirit which has made Vancouver a bigger city and given it a conspicuous place in the census, the report of the enumerators might have told a different tale. But, like Winnipeg, we did not take occasion by the hand and make the most of our opportunities. We are conscious of our growth, if not internally, at least externally, but that consciousness has not been expressed in the census returns, and the consequences are upon our own heads, whether of importance or of no real importance whatever.

LOVERS OF BEAUTY
We who are lovers of beauty go
Down paths that the rest can never know;
Only for us the white stars bloom
Like lilies drift on the sapphire gloom.

Only for us the rose's nod
Brings a thought of the tender hand of God.
Beyond other men we are strangely blessed
In our joy of the loveliness not possessed.
In the bliss we gain from a twilight hour
Or the winds of the tossed foam's flying flower,
And we thrill to the whispering sounds that pass
With the wings of the light step through the rippling grass.
Ours the secret joy that is keen and sweet
When red leaves drift down at the year's retreat.
And for us, an ecstasy ever new
With the notes of the meadow-lark, clear and true,
As we who are lovers of beauty wake
With a song in our hearts for the dawn's first gleam.

CULBERTSON on CONTRACT

by Ely Culbertson

World's Champion Player and Greatest Card Analyst

FORCING BIDS

Forcing opening bids have furnished a fruitful topic for impatient discussion wherever contract players meet. The principle of the force is easy to state and made an immediate appeal to almost all contract players. It is, in a slight degree, a fed the inferiority complexes of the more timid, as to be in a position to require that your partner, who might be a much stronger player, to some particular thing by your direction, was a very arresting thought.

I regard opening bids of two as a necessary evil. They should be made only on hands so strong that you fear that unless you open with a bid which compels a response from partner, his hand may be so weak that he would be compelled to pass. However, if you are to compel your partner to respond, even although he holds a trickless hand, you must hold of honor tricks in your own hand, and your strength in playing tricks must be such as to guarantee the partnership against serious loss.

Opening forcing bids made with inadequate strength leaves a hand of ending disastrously, and players who are inclined to shade the requirements for such bids soon find, to their dismay, that the hope for game is not material. The reason is self-evident. The hand did not justify a bid compelling a response from partner.

Take this example:
Spades K 5 4 3
Hearts A K 6
Diamonds A 8 5
Clubs 9 4

The hand, it is true, contains five honor tricks, but it must find very material support in partner's hand to make game probable. The number of honor tricks and the number of playing tricks are practically the same. A low-card trick may be developed by the spade suit or even if partner holds adequate support for the spades, two low-card tricks might be brought home in that suit, but if partner's hand is otherwise worthless, that would give a total of only seven tricks, and if this hand was opened with a bid of two, compelling partner to continue to respond until a game contract was reached, then the resultant penalty with a trickless hand opposite would be considerable, even although its holder was not vulnerable. If vulnerable, the loss could easily be 1,000 points.

There are two reasons why this hand should not be opened with a bid of two. The first is its distribution, which makes impractical the development of low-card tricks, and the second is lack of sufficient honor tricks to compel a response from partner.

This hand is of the type known to those who make a study of the structure of hands, as no trump distribution because there are so few of the small cards in it which can, by any possibility, be developed into winners. Hands of the no trump type must be stronger in honors to justify opening with a forcing bid.

Thus, with the hand given above, the safe and wise opening bid is one spade because it is not strong enough to warrant any hope of game unless partner has the strength to give either a free raise or make a free takeout.

A free raise is one justified by

CABINET ACTS TO HELP TRADE

Extends Concessions to B.C. Fishermen Through Salmon Salteries

Stimulating an industry vital to British Columbia, for the benefit of fishermen who would otherwise be out of employment for the balance of the year, the Provincial Government yesterday announced drastic reductions in the licence fee of salmon dry salteries from \$1,500 to \$500, to be applicable only this year.

In addition, salmon canneries, plichard reduction plans and salmon salteries which have paid their regular licence fees may also dry salt salmon on payment of a nominal fee of \$5 for the balance of the season. The announcement was made by Hon. S. L. Howe, Provincial Fisheries Commissioner, after Cabinet action.

Mr. Howe explained that the \$5 fee in respect to plants that have already paid a licence would have been entirely eliminated but for the purely nominal fee of \$5. The fee is not likely to be regarded as any barrier to those plants wishing to take advantage of the concession made solely to stimulate trade for fishermen, but in the world market for salmon and surplus production remaining unsold from last year.

There was a large carry-over from the 1930 pack, and canners have been putting up sockeyes only. This, in turn, has curtailed fishing for pinks and chums, in other years a fruitful source of income for the fishermen. Extension of the saltery concessions, it is hoped, will stimulate the whole industry, ensuring normal employment for the balance of the year.

See of Athabasca May Be Abolished

WINNIPEG, Sept. 2 (CP).—Fate of the vacant See of Athabasca will be decided at the meeting of the general synod of the Church of England, in Toronto, September 15. Ven. Archdeacon Jeffery stated today, and nomination of a bishop will be deferred until after the meeting.

There was a possibility of one of the archdeacons being dispensed with, the archdeacon said, in which case no appointment would be made and the territory divided among other archdeacons. Athabasca has been without supervision since the departure of Rev. E. F. Robbins, now assistant Bishop of N.W. Arch.

WOULD OUST ALL PARTY POLITICS

T. Guy Sheppard Elaborates Plan He Considers Ideal System of Governing Country

The advantages of doing away with party systems and the election of members to Parliament who would sit as individuals, voting on each question as it came up, was elaborated by T. Guy Sheppard before the Kiwanis Club. The speaker championed a system of recall to the extent that if a member's vote did not meet with the approval of those who sent him to Parliament, he should have the right to call him before the electors for an explanation of his action.

The speaker contended that each of the parties attacked the other, blaming it for the waste of money. He was inclined to believe that both were right. The situation in the Old Land, he said, afforded support to the idea that in time of emergency, the best of all parties had to be called to save the situation. He contended that such a course should be followed all the time.

Mr. Sheppard attacked the patronage system, contending that Government services were overstaffed and inefficient. Promotion should be by merit, he said. In his opinion party rule differed little from rule in Chicago. Party politics, he contended, was a negation of democracy.

FIFTY YEARS AGO TODAY

(From The Daily British Colonist of September 3, 1881)

Tobacco Prices Increase.—The tobacco crop in the Southern States is an utter failure. The drought has ruined the plant and prices are advancing everywhere. Canadian manufacturers yesterday telegraphed their agents here, advising them of an advance of 6 cents per pound in the various grades. There is a hard time in prospect for the lovers of the weed.

Has the Dredger?—The steamer Tita went out yesterday morning to load ship which was reported to be the Dredger. The Dredger is now several weeks overdue with a cargo of southern merchandise from Liverpool.

Wreck of the Treston-Capstone, Sept. 3.—Advisers regarding the steamer Treston, which was recently wrecked off the South African coast, state that a crew of eighty and 147 passengers were on board. The vessel struck a rock, but floated off and was in the act of putting back to port when the wreck. The majority of those on board perished, and all the others were drowned. Three boats were lowered, one of which foundered almost immediately, and the other two have arrived at Simonstown, containing twenty-three of the crew and four of the passengers. The Union mail steamer Coaster saved twelve of the passengers.

QUALITY LEADS IN VEGETABLES

Garden Produce at the Exhibition Shows Possibilities of Island

Victoria Horticultural Society won the special exhibit prize for garden vegetables at the exhibition with a splendid collection. The vegetables entered at the fair this year are well up to standard, and entries are considerably larger than previous years, due, possibly, to attention being given to all lines of agriculture in the province.

Some very excellent displays were shown in the main building, and entries were made in all but one class, white corn striped. The following is the list of awards announced by the judges yesterday:

TODAY'S RECIPE

SUMMER Drink—A deliciously cool and refreshing summer drink may be made with the juice of half a dozen oranges, four lemons and sugar to taste. Crush up several pieces of mint and leave to soak in the fruit juice, adding about one and a half cups of cold water. Place on ice and just before serving add three or four bottles of ginger ale—Prudence.

Comox. He is doing as well as can be expected.

Son of Rev. R. Connell Is Married

At St. Alban's Church, Edmonton, on Tuesday evening, Rev. Robert Connell, father of the bridegroom, united in marriage Margaret Edwins, elder daughter of the late Mr. George Duncan Gavin, and Mrs. Gavin, to Mr. John Hudson Connell, youngest son of Rev. Robert Connell and Mrs. Connell, of Victoria.

The church had been beautifully decorated in a color scheme of pink, blue and white, and small bouquets tied with satin ribbon marked the guest seats.

Given in marriage by her brother, Mr. Harold Gavin, the bride looked a picture of loveliness in her gown of steel blue tulle, with all-silhouette lines, the full circular skirt falling to her ankles, and the shoulders softly draped with a collar of pink and blue of the same material. Her hair was of blue felt, in the classic Lorraine style, and an uncurled ostrich feather falling from the crown over the brim. Her bouquet was composed of pink roses and blue delphinium veiled in malden-hair fern.

BRIDAL ATTENDANTS
Her sister, Miss Florence Gavin, was maid of honor, and her cousin, Miss Helen Henderson, was bridesmaid. Their frocks, similarly fashioned, were of eau de nil and orchid pink lace, respectively, and they wore large black felt hats, ornamented with a flat bow of chiffon velvet. Gladioli and fern were used in their bouquets.

Mr. William Blankenbach was best man, and the groom's best man, Mr. William Ewart and Mr. Gilbert Henderson.

RECEPTION HELD
A reception was held after the ceremony at the residence of the bride's mother at Burnaby Lake. Mrs. Gavin, wearing a gown of pink lace, was seated at the head of the table, flanked by four silver candelsticks with lighted candles.

Mrs. E. H. King, of Victoria, and Mrs. A. E. Henderson, of Burnaby, were seated at the table, and Mrs. H. E. A. Pentreath cut the cake.

THE HONEYMOON
The honeymoon will be spent motoring in the Interior of British Columbia. The bride traveled in an ensemble of flowered crepe and dark green cloth. The house was decorated with masses of flowers and foliage, and the bride's table was centered with a three-tier wedding cake, surrounded by a silver vase of white heather and flanked by four silver candelsticks with lighted candles.

ROME, Sept. 2 (AP)—A report that King Carol of Rumania is seeking a marriage with Princess Maria Francesca, second daughter of King Victor Emmanuel of Italy, was received coldly here today and most commentators considered any such marriage impossible.

Official commensals at Vatican City said a papal sanction would not be obtainable for such a marriage, because King Carol is a divorced man, whose former wife is still living.

A.Y.P.A. MEETING
An executive meeting was held by the officers of St. John's A.Y.P.A. last night for the purpose of arranging a suitable programme for the coming year. Golden Wedding Is Observed

Mr. and Mrs. George M. Watt celebrated their golden wedding at their home, 874 Irwin Drive, yesterday. They were the recipients of many congratulatory messages and received visits from many friends.

Mr. and Mrs. Watt were married at Durham, England, on September 2, 1881, by Rev. Alexander Henderson, assisted by Rev. William Muirhead, and came to Canada in 1888. Mrs. Watt and family going to stay with Robert S. Hall, a brother, in Penitence, later joining Mr. Watt, who came direct to Victoria. They have lived here ever since.

Mr. Watt was for many years on the staffs, as proofreader, of The Colonist, Times and Government Printing Bureau, until he retired from active work in 1926. He was also secretary of the Victoria Typographical Union for fourteen years.

FAMILY PRESENT
Those present at the wedding anniversary included two sons and their wives, Mr. and Mrs. Ovington Watt, Calgary; and Mr. and Mrs. Archibald A. Watt, Victoria; also their daughter, Mrs. C. B. Pearson, North Vancouver.

Their eldest son, George M. Watt, Jr., Soda Creek, B.C., and their youngest son, Robert H. Watt, San Francisco, were unfortunately unable to be present. Mrs. Watt's brother, Robert F. Hall, Kelowna, with Mrs. Hall and their daughter, Mrs. Gladys Reid, were also present.

CHARMING DECORATIONS
Lavender and gold was the color scheme throughout the reception rooms, and gladioli, asters, chrysanthemums and sweet peas were used with charming effect. Vases and beautiful baskets of flowers, sent by many friends, added to the attractiveness of the general decorations throughout. Many beautiful gifts were received by Mr. and Mrs. Watt. Assisting at the tea tables were Mesdames R. S. Hall, C. B. Pearson, Gladys Reid and Ovington Watt.

I.O.D.E. Activities

MALASPINA CHAPTER
At the home of Mrs. J. E. Lowe, Rosedale Avenue, the monthly meeting of the Malaspina Chapter, I.O.D.E., Nanaimo, was held on Tuesday evening. Reports were read from the educational secretary, Miss Devlin, and Echoes secretary, Miss Mosdell.

A synopsis of the meeting of the National annual meeting held at Halifax recently was read. A donation is to be sent to the Royal Northwest Mounted Police Memorial. A donation was made for school books to be given to local families. A set of scales is to be purchased to be used in the schools and also for health clinics conducted by the public health nurse. Subscriptions are to be renewed for The Canadian Geographic Magazine to be sent to rural schools.

Plans for organizing a new junior chapter were discussed. Greeting cards are to be sent to all newly naturalized Canadians. It was reported that soft drinks and ice cream were sent to the annual picnic of the I.O.D.E. Brownie Pack. It was decided to hold an Autumn dance on September 23 in the Odd Fellows Hall. A tea is to be held on September 12 in the Woodlands golf pavilion (weather permitting).

"Buy Empire Goods" cards were distributed to every member. The following conveners were appointed: Child welfare, Mrs. S. Devlin; Immigration, Mrs. L. Piper; and films, Miss E. Devlin. The next meeting will be held at the home of Mrs. Clarence Murphy, Fitzwilliam Street.

R.R. McICKING CHAPTER
The Robert Burns Mcicking Chapter, I.O.D.E., met for the first time after the summer holidays on Tuesday evening at the Municipal Rooms, with fifteen members in attendance. Mrs. H. G. Bolt, regent, presided. The secretary, Miss Treasle Gilliland, read the minutes of the June meeting and Miss Kay Tadm, treasurer, reported a substantial balance in the bank with which to commence the work of the Fall and Winter. Six new members were announced and will be welcomed into the Chapter at the October meeting. Miss Hilda Margetta gave her report regarding the work done for the blind in general and the broom campaign in particular. Regarding the latter, which has been a province-wide endeavor on the part of the I.O.D.E. to increase the demand for Brood brand brooms, made by the Blind of the province, Miss Margetta reported most favorably. The majority of the chapters have supported this campaign splendidly, and the result has been that the staff of the broom factory has had to be enlarged to meet the increased demands for this excellent commodity. A discussion next followed regarding the proposed excursion for next year. These enjoyable trips sponsored by the Robert Burns Mcicking Chapter, have become a popular yearly event, and although the 1930 excursion was not quite so remunerative as the previous one, still the members are not discouraged and planning an even bigger and better all-day excursion for 1932. Ways and means to augment the funds were next discussed, and a suggestion that the chapter hold a bridge luncheon early in October was favorably met. Mrs. H. W. Davey was appointed to investigate the matter. Next month the meeting will be held at 8 o'clock at the Municipal Rooms on October 6.

No joke—"My doctor told me I should have to eat less meat." "Did you laugh him to scorn?" "I did at first, but when he sent in his bill I found he was right."

HONEY INDUSTRY MAKING STRIDES

Entries at Exhibition, This Year Are of Good Quality—Awards Are Announced

Honey is rapidly becoming a recognized industry on Vancouver Island. Each year the number of honey entries at the annual exhibition increases, and this year is no exception to the rule. The standard of quality places Vancouver Island honey in the front rank of Island productions. Beeswax is also judged a superior quality.

Prizes awarded in the honey and wax classes at the Willows exhibition were announced by the judges, as follows:

It's the Tilt of the Hat That's Important

This year Millinery dictates the style. The little tilted hat worn by the Empress Eugenie and loved by the ladies of the Second Empire has changed the whole fashion picture. Its influence is apparent in the dashing, flattering styles of all the lovely hats to be seen in our

SEEDED STARS FALL IN U.S. AMATEUR GOLF

Five of Favorites Ousted From Field In Opening Rounds

Startling Upsets Feature of Eighteen-Hole Matches in Fight for National Crown Vacated by Jones—Goodman, Somerville, Lehman, Seaver and Voigt Drop by Wayside

McCarthy Only Favorite to Survive

BEVERLY COUNTRY CLUB, CHICAGO, Sept. 2 (AP).—Shaken at the outset by a series of high explosive upsets and then swept by a cloudburst of rain, the first two rounds of the match play for the amateur golf championship of the United States ended today with a dramatic flourish.

In the wide open scramble for the title relinquished by Bobby Jones, six of the eight "seeded" competitors were abruptly eliminated from the picture, all but two of the tournament newcomers turned back and the last foreign contender, C. Ross Somerville, of Canada, put out of the running.

Somerville, Dominion amateur champion from London, Ont., overcame Gene Homans, of Englewood, N.J., 2 and 1, in the morning round, but fell before Fay Coleman, of Los Angeles, in the afternoon, 4 and 3.

The youths that have been riding high so far, gave way to one of the old masters, Francis Olmsted, of Boston. The "boy wonder" of nearly two decades ago, champion in 1914, Olmsted turned in a sensational comeback as he led eight survivors of the qualifying field of thirty-two through two triumphs and into the quarter-final round of the championship.

SHIELDS BEATEN

Olmsted disposed of Johnny Shields, 4 and 3, in the first round and then trounced Frank Connolly, of Mt. Clemens, Mich., 3 and 4, to move forward as the outstanding contender left in the championship chase.

The veteran Bostonian and Maurice J. McCarthy, Jr., the black-haired New York scrapper, were the only survivors of the "seeded" coterie. McCarthy had to stage the most sensational comeback of the day to overcome Russell Martin,

Chicago, one up, and then pounded an easy second round victory over Emmett Spicer, Jr., Memphis, 5 and 3, while the thunder rolled in the afternoon.

Five of the "seeded" starters were beaten in the first round, including George Voigt, of New York, Johnny Lehman, of Chicago, Johnny Goodman, of Omaha, Charles Seaver, of Los Angeles, and Gene Homans. The sixth and last to fall was George T. Dunlap, Jr., New York, who bowed to the sharpshooting Jack Westland, Chicago, 3 and 2, in the second round.

GOODMAN GOES UNDER

Goodman was a victim of the most spectacular youngster of the tournament, Dickey Howell, of Richmond, the Virginia State champion. Howell vanquished Goodman, 2 and 1, and then took the measure of Owen Covey, Salt Lake City, 4 and 2.

Voigt fell before the superlative golf of Dick Martin, of Chicago, the big ten titleholder, 2 and 1. After this spurge, Martin came close to ending his day with another upset. Three down and three to go, he squared his second round match with Lester Bolstad, St. Paul, at the eighteenth hole, while the cloudburst was at its height, but lost at the nineteenth in the only extra-hole battle of the day.

Seaver's defeat was not so startling, for he lost a ding dong tussle with one of the medalist trio, Arthur (Ducky) Yates, of Rochester, N.Y. It went to the eighteenth before Yates won, 1 up, from the Stanford University freshman, and "Ducky" maintained his pace by overwhelming young Carey Bellow, Jr., Kansas City, 6 and 4, in the second round.

Lehman, who shared the qualifying honors with Seaver and Yates, lost to Paul Jackson, of Kansas City, after apparently having the situation well in hand. Jackson took three of the last four holes to beat Lehman, 1 up, and then showed it was no fluke by downing the veteran Fred Wright, of Boston, by the same margin in the afternoon.

SANDY ELIMINATED

It was not a great surprise, either, when Homans fell before the steady Canadian champion, Ross (Sandy) Somerville, 2 and 1. The Dominion star, however, quickly came a cropper himself of young Fay Coleman, of Los Angeles, who won by 4 and 3, to carry on the last hope of the Far West for a champion.

SANTOS STOPS ALBIE DAVIES

Local Fighter Koyed in Third Round by Los Angeles Boy—Don Fraser Wins

SEATTLE, Sept. 2 (AP).—Winning every round by a large margin, Don Fraser, Spokane, junior welterweight, defeated the highly-touted Mickey McCafferty, of Pocatello, Idaho, in the six-round main event of a boxing show here tonight.

Jimmie Britt, Tacoma welter, won over Joe Ruiz, Los Angeles, in the six-round semi-final.

Santos, Los Angeles lightweight, knocked out Albie Davies, Victoria, in the third round of a scheduled six-round bout by putting him down for a nine count in the second.

STEEL REACHES ONTARIO SEAPORT

Project Under Consideration for Years Now Completed—Locomotive New to Indians

NORTH BAY, Ont., Sept. 2 (CP).—Steel reached Moose Harbor tonight, the James Bay terminus of the Temiskaming & Northern Ontario Railway, late Monday. Laying of the tracks into the seaport—the first and only one in Ontario—marked the completion of a project which has been under consideration for some years.

Among the many residents on hand to see the laying of steel in the harbor were a number of Indians, some of whom had never before seen a locomotive.

MEETS DEATH IN FIGHTING FLAMES

TACOMA, Wash., Sept. 2 (AP).—Charles Clifford, sixty-two, was burned to death on his farm on Henderson Bay, near Purdy, late yesterday while fighting a brush fire with six other residents of the district. His body was found at 9 o'clock last night by E. Roveit and five Warden A. H. Summerfield, who had not seen him since about 4 o'clock in the afternoon.

It is believed that Clifford, in running down a hill toward Puget Sound, tripped and was knocked unconscious in the fall which followed, and was overcome by the rapidly spreading fire before he was able to help himself.

The fire was controlled before it destroyed any farm buildings. Clifford leaves a son, Clifford, in Seattle.

Agricultural Body Is Urged to Build Track

J. C. Dowds, Amateur Athletic President, Expresses Need of New Track and Field Grounds at the Willows—Expect Results

An attempt will be made by the local branch of the British Columbia Amateur Athletic Union to bring to Victoria the greatest array of sprinters in the world, stated J. C. Dowds, provincial president, in a letter addressed to the British Columbia Agricultural Association, if the inside of the oval at the Willows race track were cleared and made into a cinder path for track and field events.

In his letter to the association which owns and controls the grounds, Dowds urged that something be done to develop this part of the grounds so Victoria might have a chance to bring the British Columbia and Vancouver Island champions here next year or the season after. At the present the Capital City has no track suitable for track competition anywhere within the city limits.

Dowds pointed out that there was sufficient ground to make a fine half-mile path and also enough space to construct a 220-yard lane for the sprinters. Several times in recent years Victoria has had chances to hold the provincial championships, but officials were unable to give up the land owing to the fact that there was not a track of any kind worth holding them on.

The great need of a track was clearly brought out during the last Diamond Jubilee track and field meet held at the Willows. Hundreds of Victorians journeyed to the field to see the great Percy Williams, Vancouver sprint star, compete against a contingent of local boys. They eagerly waited for the century dash to see the Mainlander come flash down the course to victory, but, much to their disappointment, Percy looked over the track and refused to run, stating that it was in no condition. Commenting on Percy's action, after local officials in charge of the meet declared that the Mainlander was justified in not running, as an injury would result from his running on the track, the officials stated that the track was in no condition to hold the next Olympic games at Los Angeles in 1932.

Athletes from Australia, New Zealand, the United States and numerous other countries could be brought here for a big international meeting following the Olympic games next year, Dowds stated.

As far as could be ascertained, the British Columbia Agricultural Association will deal with the matter in full at a future meeting and will report back to the athletic association just what will be done regarding the inside of the track.

Seattle Giant Stops Mainland Boy Quickly

Garth Van Campen Knocks Out Billy Campbell in Thirty-Five Seconds—Frankie Neel Awarded Decision Over Wing Hay—Pastroe Wins

Garth Van Campen, termed the Prime of Pacific Northwest and hailed from Seattle, made short work of Billy Campbell, Vancouver giant, in the main event of the boxing card presented last night at the Armory by Promoter Joe Bayley under the auspices of the Non-pensioners' Association. The scheduled six-round bout, which brought together exactly 476 pounds of beef and brawn, lasted exactly thirty-five seconds and ended in favor of Van Campen. About 600 attended the show.

Van Campen, announced as weighing 250 pounds, landed a sweeping right to the solar plexus, and Mr. Campbell, who hits the scales at 220 pounds, did not know whether it had been a freight train that hit him, he was sufficient to say he hit the floor promptly and it was all over.

The novelty bout lived up to advance notices in every respect. It brought together a pair of green youngsters who had little experience in the padded mitt game, and the fans hardly had enough time even to judge their proportions.

In the brief time Van Campen and his opponent were in the ring, the former showed that he possesses ring qualities which may bring him to the front after he gains a lot more knowledge of the game. He has hands three times the size of an ordinary man and he wears shoes which border on acova. But he is fast, despite his bulk, and he appears to carry T.N.T. in his punches.

CARD FULL OF ACTION

The rest of the card contained more action than half a dozen ordinary ones, and the slugfest between Danny Pastroe and Jimmy Pepper, Seattle, stole the show. Pastroe was awarded a technical knockout in the fourth round after he had floored the Sound city youth five times.

This bout was one of the most spirited ever put here. In the second round Pepper was floored three times, twice for the count of nine, but he came back strong and in the same round floored Danny twice. The third was another wild slugfest and the fourth crowded with action.

Match Play in City Golf Tourney Will Start on Saturday

Draw and Starting Times for Opening Clashes of Titular Meet at Colwood Links Announced—Second Rounds Carded in Afternoon

Thirty-two of the best golfers in the city will commence match play Saturday morning for the city championship at the Royal Colwood Golf and Country Club. The draw and starting times were released yesterday by Walter Parry, secretary of the club. Following the completion of the morning clashes, sixteen will start off after lunch in the second rounds. Sunday, the quarter and semi-finals are carded, and the champion will be crowned on Monday with the playing of the thirty-six-hole final.

The young medalist, Norm Wallace, of the Macaulay Point Club, will face Frank Thomas, veteran Gorge Vale member and former holder of the title. Although Wallace is a strong favorite, he will have to be at his best against his veteran opponent, who is steady from tee to green. Harold Brynjolfsson, Uplands, the defending champion, will meet Don Campbell, while Morrison, runner-up in the qualifying round, has drawn Harold Wilson.

Jimmy Todd, young Gorge Vale champion, will match strokes with the veteran Eddie McQuade, and Charles H. Christopher, Macaulay Point, will battle it out with Dr. Westwood. Christopher provided the highlight of the medal test by finishing in fourth position when he was not even considered among the elite. Jack Matson will take on another of the young brigade in Ken Lawson, Uplands, and Harold Lineham, Colwood ace, will tangle with Peter Parry.

The draw and starting times follow:

FINE RIDING IS FEATURE

Mrs. D. B. Carley Thrills Spectators at Willows Horse Show

Featured by fine riding in the jumping events by Mrs. D. B. Carley on her chestnut gelding, Beggar Boy, the second night of the gymkhana at the new Horse Show Building at the Willows, last night drew a crowd of about 1,500. The horse show was preceded by the Rotary pageant, directed by L. C. Basanta, depicting "Canada, Yesterday and Today."

The manner in which Mrs. Carley handled her horse in the jumps drew favorable comment and applause from all. Of the three events she entered, Mrs. Carley gained two firsts and a third with her gelding. She also rode it in the event for hunting teams, along with two other horses from the stable. The feature of the jumps was the Hon. S. L. Howe \$500 jumpers sweepstakes, which was won by Mrs. Carley after a hard battle with the remaining competitors.

BRILLIANT SIGHT

The horse show was opened with the brilliant six-horse team driving competition, including entries from Oregon and Vancouver, four teams being entered. The results of this event will be made on the last night of the show. The manner in which the horses were directed around the ring traveling at a fast clip, caused the crowd to give much deserved applause.

The pageant was a brilliant spectacle and credit is due Director L. C. Basanta for his untiring efforts in presenting such a pageant.

THE RESULTS

The results of the riding events, judged by Col. J. J. Frye, of Stevenson, B.C., follow:

Class 188, ladies' hunters—1, Nevada, Mrs. D. L. Gillespie up; 2, Chicken Pie, Doris McEl Winter up; 3, Dublin Bay, Mrs. Carley up.
Class 107, park hack—1, Pretty Polly, Vancouver Riding Academy; 2, Ambercrest, Mrs. Gillespie; 3, Beggar Boy, Mrs. D. B. Carley.
Class 119, ladies' hunters—1, Beggar Boy, Mrs. Carley; 2, entry ridden by Doris Winter; 3, Sonny Boy, Mrs. McAnall.
Class 112, best saddle horse—1, Dresden China, Miss D. H. Hogan, Duncan; 2, Coni, Miss M. J. Waddy.
Class 121, hunting teams—1, Dynamite and mates, Vancouver Riding Academy; 2, Entry from D. B. Carley Stables; 3, Glory B and fever outbreak.

RADIUM PROVED POTENT AGENT

Has Already Accomplished Much in Treatment of Cancer, Therapist Says

MONTREAL, Sept. 2.—Cancer control was the greatest problem of health today and radium had come to the fore as a potent agent. It was not a panacea, for even in skilled hands its results were often disappointing, but on the whole the world of medicine could look with satisfaction upon what it had already accomplished. Dr. Joseph Muir, famed New York cancer expert and physical therapist, stated in addressing the convention of the American Academy of Physical Therapy which opened here today.

Dr. Muir stressed that use of radium in malignancy had opened up a new field for medicine and that the implantation method of cancer treatment or radiation of the affected area through seeds, was a promising means of combating cancerous ravages.

The convention is being attended by leading physicians and surgeons of Canada and the United States.

Russo-Japanese War General Dies

TOKIO, Sept. 2 (AP).—General Hyoe Ichinohe, retired, who distinguished himself in commanding troops at the siege of Port Arthur during the Russo-Japanese war, died today of intestinal trouble. He was seventy-six years old.

General Ichinohe devoted all of his active life to military service, becoming a sub-lieutenant in 1877 after graduating from a military academy. In the Russo-Japanese war he was chief of staff of the Third Army and subsequently commanded the first brigade of infantry.

ANCHORAGE, Alaska, Sept. 2 (AP).—A plane left here today at the request of the Indian Bureau authorities, on the heels of a flight to Ushak, isolated Indian village, scene of a reported scarlet fever outbreak.

Not Enough Ships To Handle Cargo

SYDNEY, Australia, Sept. 2 (CP).—As a consequence of an early and favorable lambing season, pressure from the banks for meeting overdrafts and an exchange position favoring exports, shipping companies here are unable to place in service sufficient ships with refrigeration equipment to meet the abnormal requirements of this season.

Fourteen ships have been scheduled to sail in September, and ten are already listed for October.

Air Races Postponed

CLEVELAND, Sept. 2 (AP).—Rain forced postponement of today's events of the national air races here.

CABINET RESIGNS

SANTIAGO, Chile, Sept. 2 (AP).—The Chilean Cabinet resigned late tonight and a special session of Congress was called for 1 a.m. tomorrow, to decide on the declaration of a state of siege, requested by Vice-President Trucco.

No Suggestion of Autumn Recovery Seen in New York

NEW YORK, Sept. 2 (AP).—Mid-week trade statistics failed to suggest the possibility of an autumn recovery today, and the security markets, in common with commodities, sold off.

Omission of the Lehigh Valley dividend and the disappointing small increase in loadings of revenue freight brought out fresh selling of the railroad stocks which, as a group, averaged into new low ground. Steels and chemicals softened.

Little enthusiasm was shown for utilities, oil or motors. Amusement issues felt the disappointment that was imposed on the whole market. Trading increased over yesterday's diminutive volume, the turnover being \$62,000,000 shares.

RAILS LACK SUPPORT

Absence of support in the railroad group reflected concern over decisions that may be taken at dividend meetings scheduled for this month and next.

New York Central and Pennsylvania are mentioned in brokerage house gossip as among the roads likely to make further cuts. Both issues made new lows for recent years, Pennsylvania reflecting in part the weakness of Lehigh, which it controls through stock ownership. Lehigh's loss was 8 points.

In comparison with the rails, losses of the industrial and power and light stocks were moderate. United States Steel, Union Carbide, American Can, American Telephone, Bethlehem, Westinghouse, Loew's Dupont, Air Reduction and Consolidated Gas dropped 1 to 2 1/2 J. I. Case, whose directors meet for dividend action tomorrow, declined 3/4. Columbia Carbon 4, and Allied Chemical nearly 3.

Final prices were near the day's lows.

FOREIGN EXCHANGES DULL

Foreign exchanges were mostly dull. The Canadian dollar fell nearly a tenth of a cent but European rates made narrow changes. Sterling was about steady.

A general decline in railroad issues, particularly speculative obligations, featured the bond market, other corporate bonds were barely steady, and the foreign group closed with irregular gains.

HIGHER-PRICED ISSUES ACTIVE

Lorne Gold Still Showing Strength on Vancouver Stock Exchange

VANCOUVER, Sept. 2.—Activity in higher-priced issues and continued interest in Lorne Gold, Colton and Nordon Corporation were chief features of stock exchange business on Wednesday.

Lorne Gold showed strength and transactions in this bridge river issue involved more than 33,000 shares. The stock opened at 11, prevailing price of the past few days, and climbed to 11 1/2, this price holding for 27,000 shares. A final lot of 2,000 brought 11 1/4 on buyers' sixty-day option.

Higher-priced issues included two lots of International Nickel at a steady \$12.50 and 100 Coast Breweries in odd lots at \$12 to \$12.25.

Nordon Corporation recorded a 5-point gain on the day's sales, closing at 25 cents after active business. Crown's Nest was active at 4 1/2 cents. Colton Gold held at 22 to 24 cents.

JOE BROWN IN "BROAD MINDED"

Famous Comedian Scores Hit in
Capitol Film, Starting Today
for Three-Day Run

The smallest man in the movies plays a role in Joe E. Brown's first National starring vehicle, "Broad Minded," which comes to the Capitol Theatre today for three days. He is only three feet six inches tall and weighs but sixty pounds. He is Johnny Winters, one of the attractions with a famous traveling show. Winters, who is twenty-five years old, was vacationing in Southern California, when he was secured for the role in "Broad Minded."

The cast supporting Joe E. Brown includes Ona Munson, William Collier, Jr., Marjorie White, Holmes Herbert, Margaret Livingston, Thelma Todd, Grace Hampton, Bela Lugosi and George Grandee.

"Broad Minded" is the hilarious story of two girl-crazy boys, one of them Joe E. cast as the timid guardian of the other. The picture offers the popular funny man his greatest comedy role.

COLISEUM How a girl, disillusioned by one man, hardens her heart against all others and almost misses an honest love when it is offered, is the theme of Dorothy Mackaill's new starring picture, "The Reckless Hour," at the Coliseum Theatre. Conrad Nagel, H. B. Warner, Joan Blondell and Walter Byron are featured in the supporting cast.

DOMINION Marie Dressler and **THEATRE** Polly Moran are turning out a lot of laughs in their new comedy, "Politics," which is showing this week at the Dominion Theatre. Charles F. Riesner, who directed these two comedies in "Caught Short," again puts the two popular stars over in another great picture.

UNDERWORLD THEME IN PLAYHOUSE FILM

Defying the underworld to save her brother's life, and risking the loss of her sweetheart's love is the central theme of the stupendous James Cruse production, "The Big Fight," opening at the Playhouse Theatre today. The story culminates in a battle for the heavy-weight championship with "Big Boy" Guinn Williams and Tony Stebbins as opposing contenders, and some of the most realistic and gripping fight scenes ever staged are seen in this dramatic photoplay.

Lola Lane makes an excellent and appealing heroine who is faced with the choice of betraying her prize-fighter lover or dooming her brother to death at the hands of a band of gangsters.

TOM WALLS STARS IN "ON APPROVAL"

There is a sting in nearly every line of "On Approval," the British feature coming to the Coliseum Theatre on Saturday, and in Frederick Londale's story of a selfish couple whose ruthless egotism is cured by the discomforts of the snowbound Scottish mansion in which they are left to fend for themselves. The leading parts are played with just the right note of supercilious sophistication by Tom Walls and Yvonne Arnaud.

AMUSEMENTS

On the Screen
Capitol—Joe E. Brown in "Broad Minded."
Coliseum—"The Reckless Hour," starring Dorothy Mackaill.
Columbia—Lola Lane in "The Sin Ship."
Dominion—"Politics," featuring Marie Dressler.
Playhouse—Lola Lane in "The Big Fight."

"THE SIN SHIP" IS DRAMATIC SEA TALE

For sheer melodramatic power, Radio Pictures' powerful sea romance, "The Sin Ship," coming to the Columbia Theatre today, has seldom been equaled on the talking screen.

The story starts with dramatic suddenness—a beautiful girl on the high seas in the grip of a thief, a "lady-killer" sea captain, a pair of covetous mates and a crew of brutes.

Mary Astor is the girl; Louis Wolheim is the captain; Hugh Herbert and Alan Roscoe the mates, and Ian Keith, the thief.

Wolheim directed the production.

CROWDS ARE EXPECTED FOR STAGE ATTRACTION

Judging by the way in which mall orders are coming into the Royal Victoria Theatre for the forthcoming engagement of the celebrated stage star, Ethel Barrymore, in Sheridan's immortal comedy, "The School for Scandal," for Saturday, September 12, it will be one of the outstanding theatrical events of recent years. The unusually heavy demand by mail in advance of the opening of the box office sale of the theatre indicates that the "first lady of the theatre" will duplicate here her great successes all along her route this year, which, incidentally, has been one of the most satisfactory tours of her long and illustrious career.

Her selection this year of the great English comedy which has been played by almost every great actor and actress since it was first produced in London a hundred and fifty years ago, has been hailed with tremendous enthusiasm everywhere.

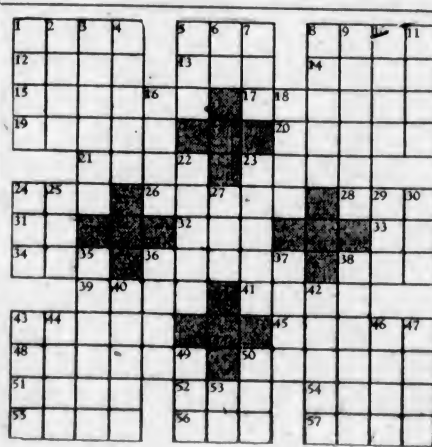

Prosperity Is Foreseen By Minister

TORONTO, Sept. 2 (CP).—Returning prosperity was foreseen today by Hon. Leopold Macaulay, Ontario Minister of Highways, speaking at the director's luncheon of the Canadian National Exhibition. Increased traffic on Ontario roads this summer was the basis for his conclusion.

Checks by Provincial traffic police, he said, showed an 11 per cent increase in motor traffic generally over 1930. United States cars coming up to Canada showed an 8 per cent increase.

These figures indicate we have passed in the night that gloom called depression and that we are facing the sunrise now," said Mr. Macaulay.

Divorced Queen in Exile

WHILE Princess Helene of Rumania was being married with pomp and magnificence to Duke Anton of Austria, in the presence of all the members of the royal house of Rumania, King Carol's ex-Queen Helene, to all intents and purposes an exile, had found a haven with other members of the royal family of Greece as guests of Colonel and Mrs. James Horlick, at Ascot, England. Left to right, in above picture are: Former Queen Sophie, of Greece; Prince Paul, Mrs. Horlick, Capt. Makings, Princess Irene, Miss Katherine Horlick and Princess Helene, once Queen of Rumania.

Just Roamin' Around

By TWO ROVERS

September's here! Rover and I are both in love with the Fall months, and especially with September, and we are so glad to see it arrive and most grateful to be allowed to revel in September days once more.

To celebrate the advent of our favorite month a kind friend suggested a whole day out at Sooke Harbor. He knows our aversion to walking more than is necessary, although it was a chief hobby in the days before the war that the last comers did not win; and, being the proud possessor of a cute little motor car, he drove us to Sooke, with Rover in the "grumble seat," where he cursed the dust and the heat to a fare-thee-well!

We started off, first of all, to Esquimalt, and down (or up) Admirals Road, a most lovely harbor-side country lane, to the main highway. We passed the renovated and redecorated Four-Mile House, and thought it looked the most attractive place on the Island Highway, and what a pity it is that there are objections to allowing it to become one of the most popular resorts on the Island as well.

IT'S A BONNIE ROADWAY!

The whole way to Sooke is a panorama of stately loveliness! Curve and twist in the roadway, all add to its charm. From the spot we slowed up at, at the end of Esquimalt Harbor, where is a really superb old-fashioned inn, that, however, needs some trees around it or some evergreens, on to Seventeen-Mile House. In the hills of Sooke there are a hundred vistas that charm the roving eye or engage the roaming breast, and fill one with a longing to leave the city for good; (it's good!), and live in the open country and on the road to Sooke, and each view tempted us to stay and enjoy its lazy, choice and cozy comfort.

Our first glimpse of Sooke Harbor gave me a great longing to squat on that very finely-treed island, there, and settle down for life; and Rover, from his perch in the rear, said: "Master! we'll call our wee log cabin there, 'Rough-hew'!" "We will, Rover," said I.

Correctly speaking that island is in Sooke Basin, which extends from the mouth of Sooke River to the farthest east of the water, and Sooke Harbor is really that sheet of water from Whiffen Spit to the river mouth. The whole of Sooke, from the island we covet to the sea beyond Sooke village, is composed of what is called "sooke formation," or sandstone and conglomerate. Rover says: "In spite of that, Sooke is just about all right!"

Of course we drove right out to the spit, and did not envy the few bathers we saw there, who actually acknowledged that the water "might be warmer." But, close by, were maple trees, whose large, fine leaves were turning a golden yellow, russet and deep brown. This reminded me that the Fall is approaching; one cannot stop it at this time of the year, in fact, I, for one, would not do so if I could. I just love the Autumn time, the feeling of completeness that this time of the year gives me. I know that September's here, and longer evenings—at home, time to do more reading, jolly times with good friends around the fire-side and in the gentle glow from subdued, nonglaring lights. Yes, we love Sooke and we love September, and we did indeed enjoy our trip to and from Sooke.

BELGIAN PROFESSOR CONVICTED IN ROME

ROME, Sept. 2 (AP).—Leo J. Moulin, young Belgian professor, who was arrested here several months ago, today was sentenced to two years' imprisonment and deportation at the end of his term, upon his conviction on a charge of conspiracy against the Fascist state.

THE 'TOONERVILLE' TROLLEY THAT MEETS ALL THE TRAINS

THE DOT CARTOONIST, BY GEORGE BELL

"You're a peach of an apprentice, trying to measure pipe with a ruler. Go and get a pair of . . ." (Kindly draw straight lines between the numbers.)

the painter of the famous coronation picture. Abbey, while a member of a Philadelphia club, used to tell a story about a man who had a chestnut farm. According to his story, this farm owner never made any money out of his land, because he always gave his chestnuts away. Abbey was extremely fond of telling this story - so fond of it that in order to have his say, he would, to disguise, it begin it differently at each retelling, so that his fellow clubmen at first would not recognize it.

However, before long, they would invariably get the drift of it, whereupon they would break in, exclaiming "Chestnut!" This always stopped the indefatigable storyteller.
